STAGING YOUR HOME /

A luxury agent from The RE/MAX Collection brings a high-end perspective and knowledge of what luxury buyers are looking for to ensure your home shows beautifully in person and online.

Keep in mind that staging does not mean remodeling. Staging involves cleaning, rearranging and decorating to highlight a home's best features such as a Carrera marble mantle, hand-laid herringbone floors, impeccable ocean views or a well-appointed room.

SHOWCASING YOUR PROPERTY /

With most buyers conducting their search online, professional listing photography and videography are essential for creating a high-end visual impact. Flattering natural light and carefully chosen angles showcase your impeccably designed space, attracting the highest buyer interest. Often, your first showing occurs online, followed by an in-person viewing.

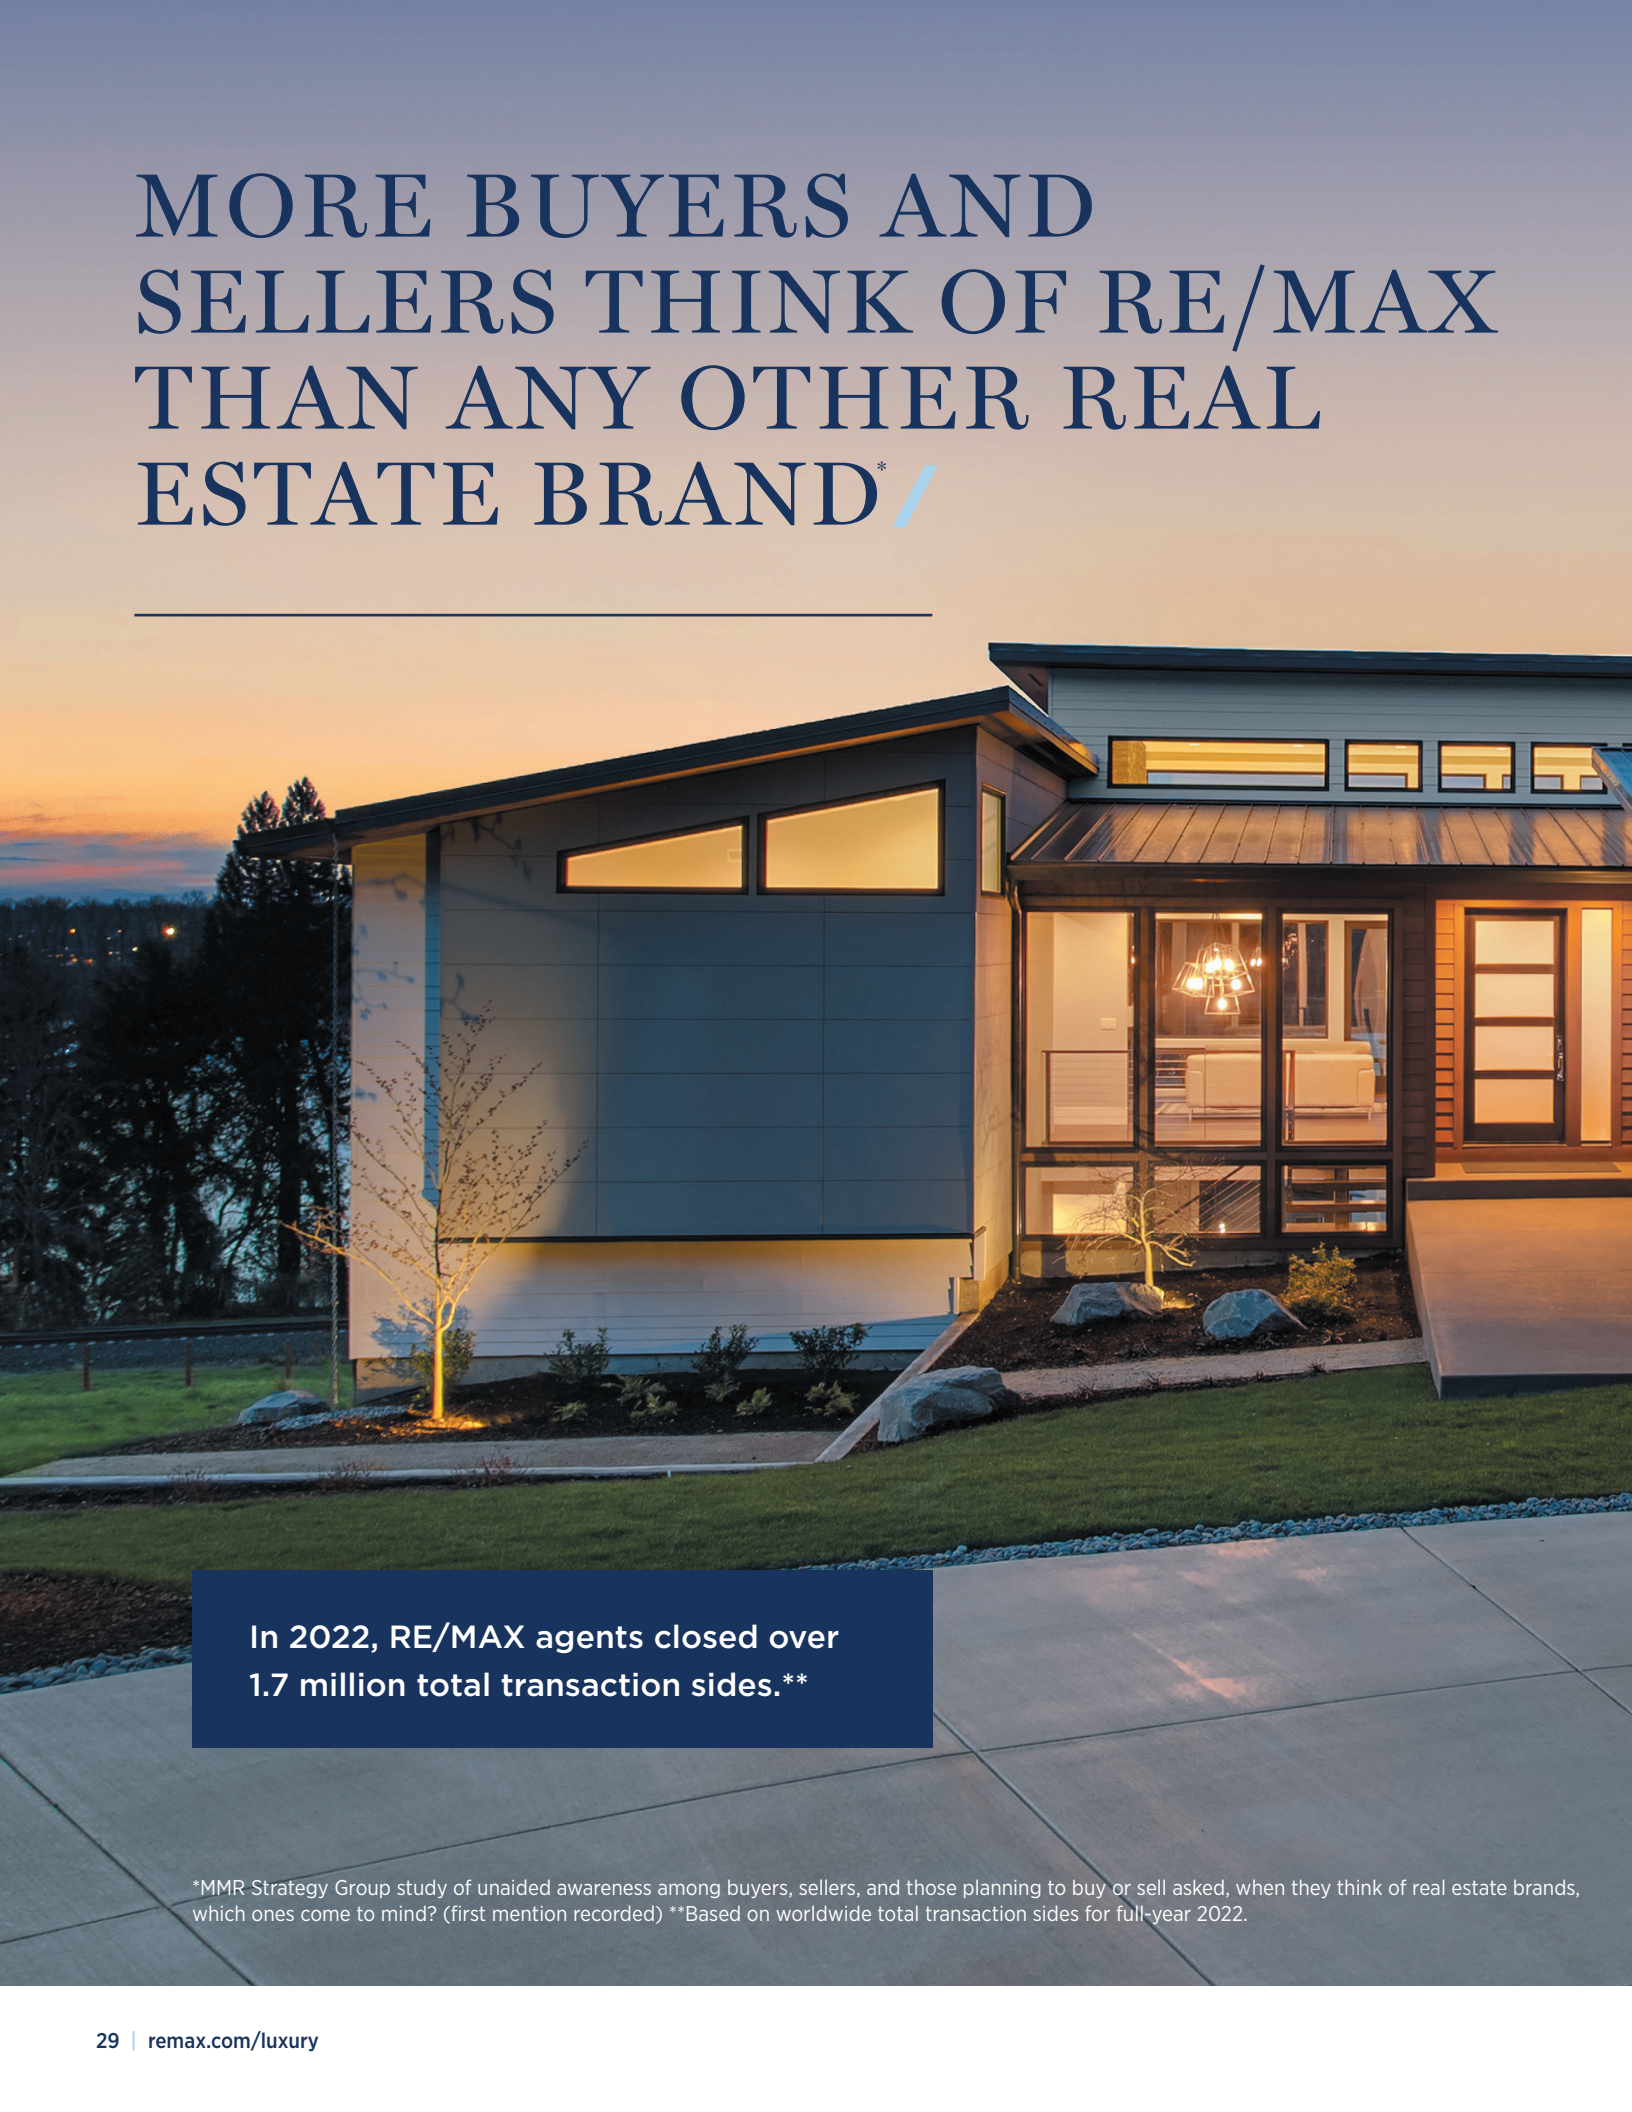

ATTENTION TO DETAIL /

The RE/MAX Collection luxury agents are truly committed to your success and will guide you through a thoughtful process which may include:

- / Preparing an informed market analysis to help you determine an optimal buying or selling price that will attract the most buyers.
- / Referring you to local experts such as stagers and contractors to ensure your property is positioned in a competitive market.
- / Marketing your home to appeal to a qualified buyer pool with inspired photography, video, resources and strategies exclusive to The RE/MAX Collection.
- / Showing your home's features and benefits to the next potential owner.
- / Reviewing all offers in a timely manner and discussing negotiations with you.
- / Monitoring the steps necessary for a successful closing such as scheduling inspections and appraisals.
- / Providing peace of mind throughout the buying or selling journey.

MORE BUYERS AND SELLERS THINK OF RE/MAX THAN ANY OTHER REAL ESTATE BRAND*

the 1990s, the number of people in the world who are poor has increased from 1.2 billion to 1.6 billion.

There are two main reasons for this. First, the population of the world has increased from 5 billion to 6 billion. Second, the number of people living in poverty has increased in many of the world's poorest countries.

There are a number of reasons why this has happened. One reason is that the world's population is growing faster than the world's economy. This means that there are more people to support than the economy can provide for.

Another reason is that the world's poorest countries are not growing fast enough. This means that the number of people living in poverty is increasing in these countries.

There are a number of things that can be done to help reduce the number of people living in poverty. One thing is to help the world's poorest countries grow faster. This can be done by providing them with more aid and investment.

Another thing is to help the world's population grow more slowly. This can be done by providing people with more information about family planning and birth control.

There are many other things that can be done to help reduce the number of people living in poverty. It is important that we all work together to find solutions to this problem.
